

oomph::TetMeshFacetedSurface

The diagram illustrates an inheritance relationship between two C++ classes. The base class, `oomph::TetMeshFacetedClosedSurface`, is located at the bottom and is enclosed in a solid black rectangular box. The derived class, `oomph::TetMeshFacetedSurface`, is located above it and is enclosed in a dashed black rectangular box. A vertical arrow points from the top center of the base class box to the bottom center of the derived class box, indicating that the derived class inherits from the base class.
